Chamber of Commerce Essay

I feel I'm a great candidate for consideration of this scholarship because I am a hard worker, I have a good work ethic and I give 100% of myself. I'm very passionate about my future and volunteerism also.

I have learned a strong work ethic from playing sports. My work ethic has transferred from sports to my education. I believe school is important, is also very expensive. My parents, a teacher and a security officer, are hard workers. They have taught me how important it is to work hard to achieve my goals.

I also feel strongly about giving back to my community. I have been a member of the Boys and Girls Club of Stoneham since I was 9 years old and now I work there. Giving back to the children of this town is important me. This place gave me a place to feel valued and confident while growing up, especially, during my middle school years. I will forever feel a bond with The Club. I learned so much about community service from my time here. Receiving this scholarship toward my education will be greatly appreciated and I look forward to giving back to The Boys and Girls Club and Stoneham. Thank you for your consideration.
